### SUMMARY

---

I want to work in a competitive environment where I can take on challenging tasks. This will help me apply what I know and improve my skills, gaining more knowledge and experience. My aim is to contribute to the organization's growth and success.

### SKILLS

---

**Frontend:** HTML | CSS | JavaScript | ReactJS | Redux | Bootstrap | tailwindcss | jQuery

**Backend:** NodeJS | Express.JS

**Database:** MongoDB | MySQL

**Programming Languages:** JavaScript | C | PHP

**IT Constructs:** Data Structures and Algorithms, OOPS, OS, DBMS

### EXPERIENCE

---

#### Application Developer

(Ucertify learning & Training Certifications)

12/2022 to 05/2023

At Ucertify, my responsibilities include developing new features to enhance the quality of the Ucertify Platform using **PHP, HTML, CSS, JavaScript, Bootstrap, Smarty template, jQuery, and AJAX**. Writing and maintaining efficient, reusable, and reliable code. Integrating data storage solutions such as **MySQL** databases.

### PROJECTS

---

- **To Do Applications:**

The To-Do Applications project aims to create a user-friendly and efficient application for managing tasks and to-do lists. By leveraging React for the frontend and Redux for state management, the project can offer a seamless user experience with robust data handling capabilities.
